Live in
Lekunberri,
your new home
in an award-
winning village

Lekunberri has been awarded the 'Best Tourism Villages' prize, rewarding its preservation of local culture and traditions, as well as its protection of biodiversity.

These values are evident at first sight in this charming town located 40 km from San Sebastian and 25 km from Pamplona. Lekunberri is also the starting point of the Plazaola Greenway and offers many other attractions.

Years ago, Pamplona and San Sebastian were linked by the Plazaola, a narrow-gauge steam train that transported iron from the mines of the same name and, later, passengers to the capital of San Sebastian. Over time, the route fell into disuse, but part of its route was recovered and today it is a beautiful greenway that can be cycled along from Lekunberri. This town has been recognised as one of the best tourist destinations in the world by the World Tourism Organisation.

Home ready in an Award- winning location
